AIRBRUSH TANNING GUIDELINE

Client Name: _____

Address: _____

Phone: _____

You have agreed to participate in one or more airbrush tanning sessions to achieve a sunless tan on your skin. For best results, please read and indicate that you understand and agree with the following information.

1. An airbrush tan, like any self-tanning product will not protect your skin from burning in the natural sun or in a UV tanning bed. Please take proper precautions when exposed to UV light.
2. For best results, we recommend two sessions within seven days to develop your desired color. Maintaining your color is possible with subsequent visits every five to ten days. Healthy, hydrated skin will hold results longer and achieve results faster.
3. For best results wait eight hours after airbrushing before showering.
4. The initial bronzers in the airbrush tanning solution may transfer to clothing or fabric. The bronzers are water-soluble and will wash out of most fabrics.
5. All the components of the airbrush tanning solution have been safely used in cosmetics and nutritional products for decades and have been proven safe for the skin. If you have had adverse effects utilizing self-tanning products or moisturizers in the past, you may experience similar effects with the airbrush system. Please discuss this with the technician before proceeding.
6. We recommend that you hold your breath during facial spraying. We make this recommendation because most individuals would prefer not to breathe the mist. The solution is not considered harmful in the minimal amounts that may be inhaled in a normal spray tanning session.
7. If you have a history of asthma or other respiratory or medical conditions that could be aggravated by the use of the airbrush system, please consult a physician before proceeding. Please inform your tanning technician of any past allergic reaction to DHA products or other medical concerns.

I, the undersigned understand and agree to comply with all instructions. I have been properly instructed prior to my airbrush session. I am using these services at my own risk. I hereby authorize and direct employees or agents of the salon to perform such tanning procedures as may be deemed necessary or advisable, and have provided them with the above information required. I acknowledge that the results of airbrush tanning do vary and that no guarantees of specific results are offered or implied. I hereby relieve this establishment, as well as the airbrush technician, and hold them harmless from any liability involved in the use of the tanning process. The salon and their agent or employees are not liable for any injury to persons or property or the loss or theft of any personal property.
